

Menu Modes Explained

There are different modes of access which depend on what level of the sport you are an administrator at. This level of access will determine what menu modes you can see at the top right of the screen.

If you are an association, you will see **'management'** or **'participation'**.

If you are a club, you will not have any modes.

The **'management'** mode is for functions relating to the setup and management of a competition and player registration. Clubs do not perform these functions which is why they do not have access to this mode.

The **'participation'** mode is for functions relating to participation in a competition. This is the only mode clubs have access to by default.
